

Aetna Member Website and Aetna Health App

Prescription List

The **Prescription List feature** provides members with a list of prescriptions processed under their plan for the past year. Prescriptions will display regardless of **where** the member had the prescription filled. For example, past prescriptions filled at CVS, Rite Aid, Walgreens, etc., will display on the list.

The **Prescription List CAN** include prescriptions filled through mail order, retail pharmacy, or through the specialty pharmacy program.

Note: Specialty pharmacy medications will only display if they're covered under the member's pharmacy benefit.

Accessing the Prescription List

To access the **Prescription List**, the member will click on the **Prescriptions tab**, **OR** they can mouse over the **Prescriptions tab** and click either **Go to Prescriptions** or the **Prescription List link**.

Note: Medicare NextGen members will NOT have the Go to Prescriptions option in the dropdown that displays.

If they click on the **Prescriptions tab OR** the **Go to Prescriptions link**, they'll land on the **Prescriptions landing page**.

From the **Prescriptions landing page**, under the **Prescription List tile**, the member will click **View All Rx** to see their prescription list.

The member will click the **Prescriptions tab** to access the **Prescriptions landing page**.

When the **Prescriptions landing page** displays, they'll click the **View All Rx link** on the **Prescription List panel**.

The **Prescription List will display**.

Prescription List
As of Oct 15, 2024
This list includes all prescriptions processed under your current plan in the past year.
